Healing from the Heart

This workshop is one of two parts for Phase 2 of the Healing Pathway program. It provides an opportunity to deepen the experience of healing and connecting to Divine healing power through the heart center. Focus is on increasing the Practitioner's self-awareness and self-understanding. Emphasis is on development of self as an instrument of healing. New healing sequences and assessment procedures are introduced and practiced, along with effective use of dialogue to deepen the healing process. *Phase 1 is a prerequisite.*

At this experiential workshop you will:

- Practice the skill of being a heart-centered, healing presence
- Learn and practice assessment skills on the physical, emotional, mental, and spiritual levels
- Review and practice specific healing sequences and learn new ones
- Deepen self-awareness and understanding through exploration of spiritual practice and self-care
- Discuss the connection of this healing ministry with spiritual practices such as prayer, meditation and worship.
