“Healing from the heart means to connect to the Divine. When we allow the Divine to work through us, infinitely more is possible.” Rochelle Graham, Founder of the Healing Pathway

The Healing Pathway is a program to help people develop the gifts and skills of energy-based healing within the Christian tradition, and to foster the development of healing ministries within faith communities.

Healing from the Heart is one of two parts of Phase 2 in the Healing Pathway program. It provides an opportunity to deepen the experience of healing and connecting to God's healing power through the heart centre. Focus is on increasing the Practitioner's self-awareness and self-understanding. Emphasis is on development of self as an instrument of healing. New healing sequences and assessment procedures are introduced and practised, as well as effective use of dialogue to deepen the healing process. Phase 1 is a prerequisite. The workshop includes:

- ✚ Practising the skill of being a heart-centred, healing presence
- ✚ Deepening awareness of the physical, emotional, mental, and spiritual levels
- ✚ Practising specific healing sequences and learning new ones
- ✚ Reviewing and discussing the Code of Ethics
- ✚ Deepening self awareness and understanding through exploration of spiritual practice and self-care
- ✚ Discussion of the connection between spiritual practices - such as prayer, meditation, and worship - and healing ministry

Instructors

Jackie Walters has been with the Healing Pathway since 2002 and has taught in Alberta, BC, and Guatemala. Jackie delights in how the Healing Pathway supports participants' spiritual growth and healing. She brings her faith, compassion, and a sense of fun to these workshops. Jackie is an instructor and mentor, spiritual director, and active member of the healing ministry at Red Deer Lake United Church in Calgary.

Deb Firus has been following the Healing Pathway since 2000. Her home is in Saskatoon and she believes that life is about balance in all aspects of our lives. As we change ourselves we change the world. Taking Healing Pathway, we create an environment of wholeness and spirituality that radiates in our homes, congregations, communities, and the world.

The Healing Pathway program is an energy-based approach to healing.

The understanding is that all healing basically comes from within. Practitioners are trained to be a heart-centered, loving presence, and to use techniques in an intentional manner to facilitate and support the healing process of an individual, for physical, emotional, intellectual, and spiritual well-being. Healing sessions do not always involve physical contact between the practitioner and the receiver, the practitioner may simply work in the bio-energy field around the body.

Healing Pathway training has four phases. Each phase is a prerequisite to the next. The first two phases are held in congregational or community settings. Phases 3 and 4 are held in retreat setting. All workshops are experiential.
